

Riparian Condition Improvement, Agricultural Practice Improvement AGM Report 2025

- Seqwater Engagement
- Julian O'Mara and Tim Odgers
- Bringing catchment groups together

- Many different hats
- Water quality first

- Seqwater rangers attending a LBCCG workshop

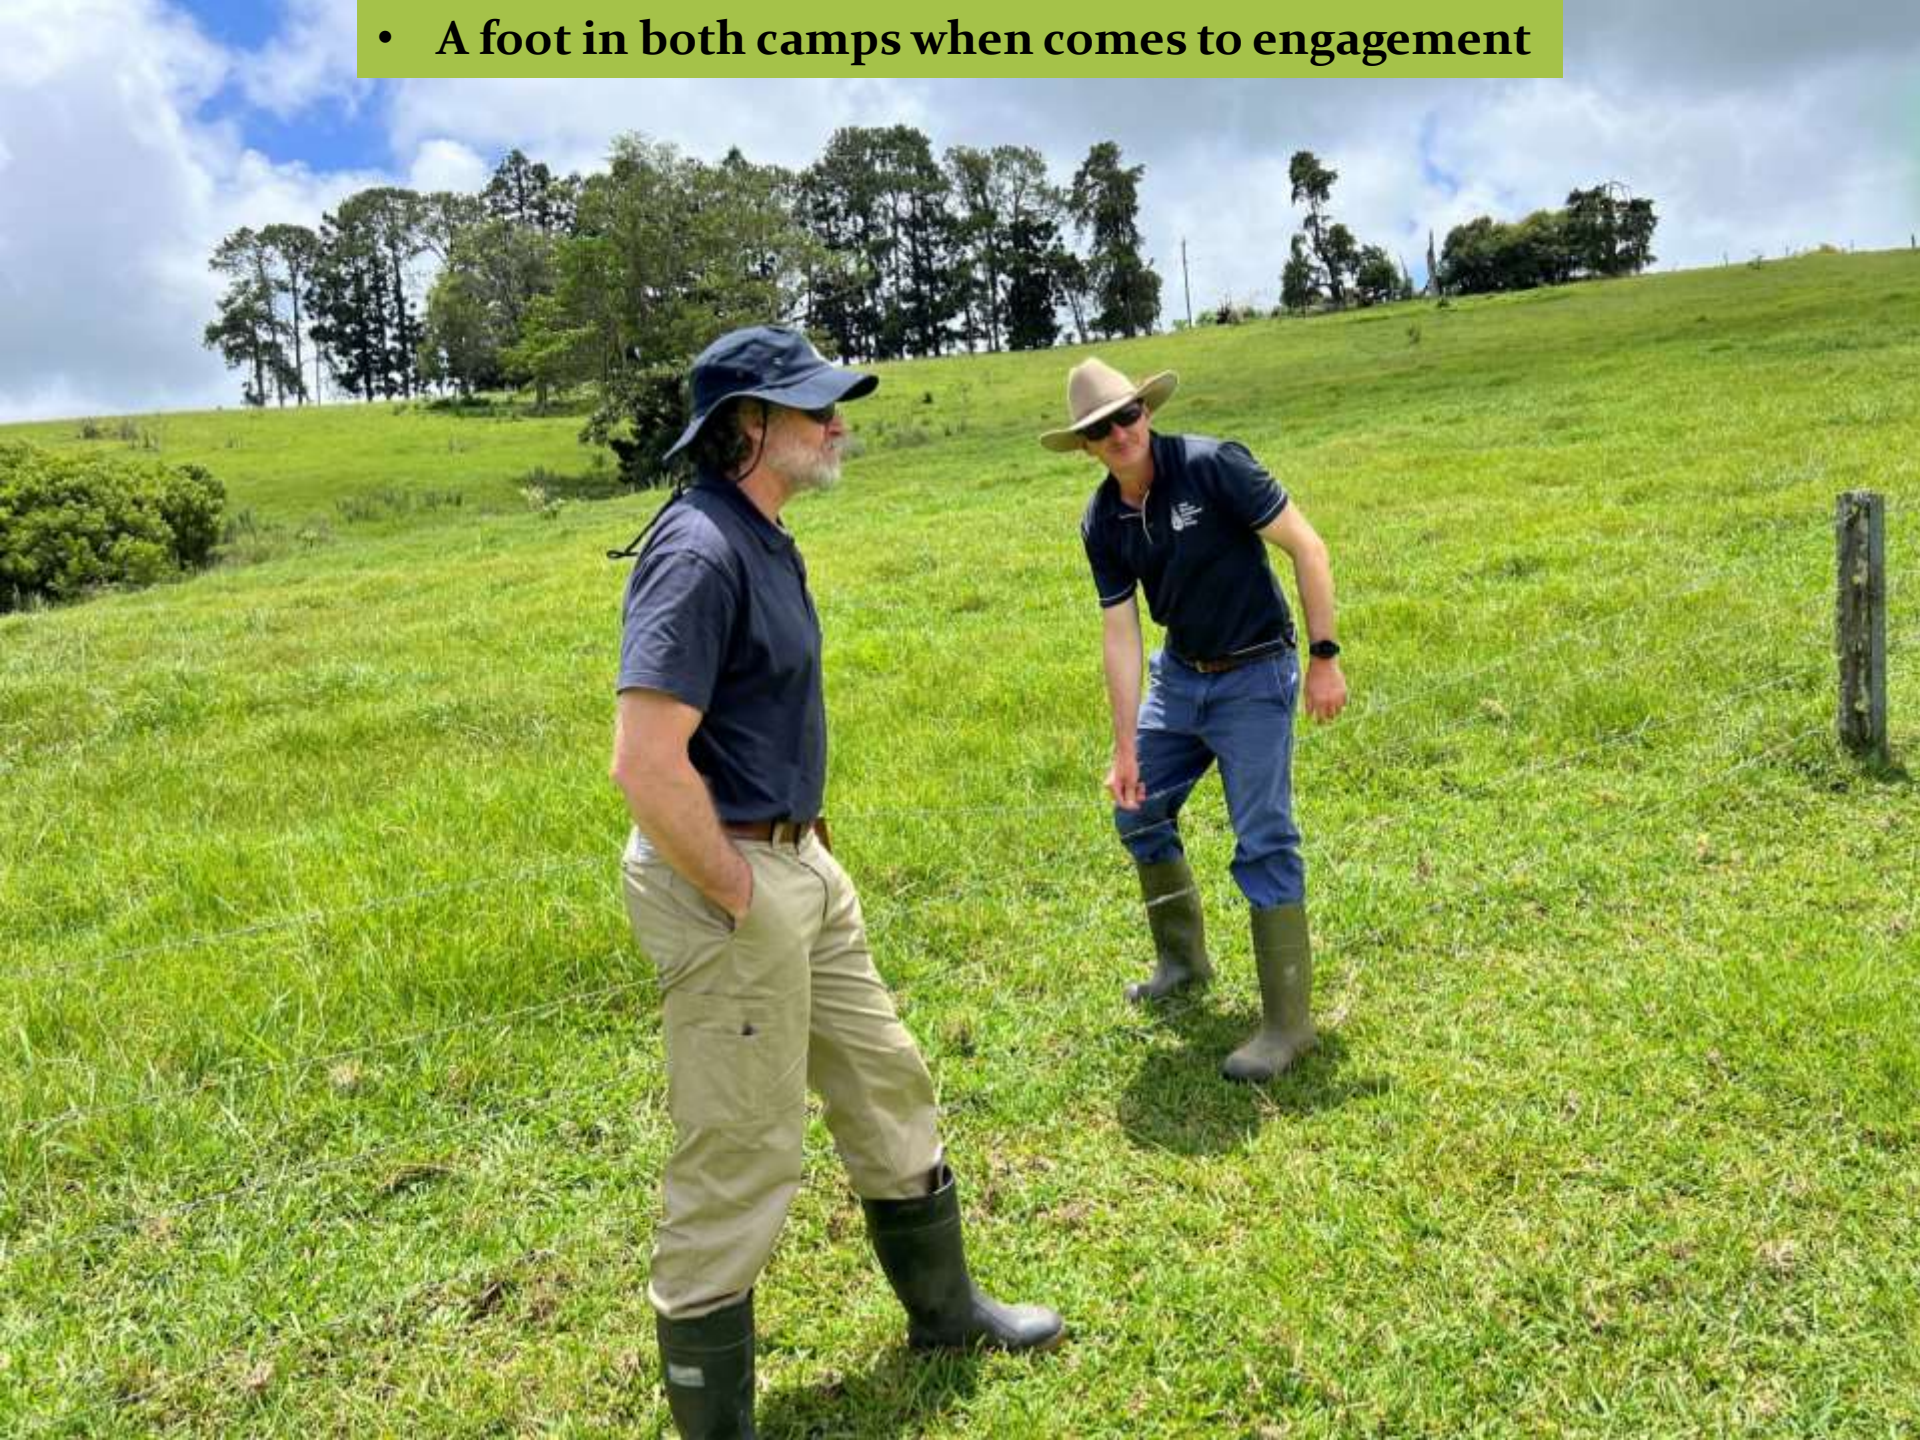

- Seqwater asset monitoring training day

- Dairy industry talk at Tranquil Park
- Excellent opportunity to network

- A foot in both camps when comes to engagement

- Farmers are generally good listeners

- **New landholders to the catchment want to understand the catchment**

- Exploring the catchment

- **Contractors showing pride in their work**
- **Achieving targets and outcomes**

- **Contactors working on farms**
- **Showing maturity and professionalism**

- Every office has many chairs
- All project are looked at by all staff

- Some days I just want my office to myself

- Our other office out in the field
- Working with future catchment carers

- Workshops and field days are important
- All LBCCG staff are part of the program

- When landholders provide morning tea

- And amazing venues for workshops and field days

Thank you to the committee
